sample genomes
& build phylogeny

←755→

A diagram showing a vertical stack of four colored squares: light blue, light purple, light green, and light cyan. The squares are arranged vertically, with the light blue square at the top and the light cyan square at the bottom. The squares are surrounded by a thin black border. To the right of the squares, the text "sample genomes & build phylogeny" is written vertically. Below the text, a horizontal double-headed arrow indicates a width of 755.
